1. OUR HERITAGE

Founder Journey – Natubhai Laxmanbhai Jasani Founder & Partner, J Varshit Diam – Surat, Gujarat

1. Introduction
I am Natubhai Laxmanbhai Jasani, born and raised in Pipardi, Gujarat — Founder and Partner of J Varshit Diam.Our company thrives on a family-owned business structure, where decisions, direction and growth are shaped collectively by our family members and trusted partners.
With over 20 years of experience in the diamond industry, I dedicated my life to building a culture of polished diamond trading, manufacturing and value-driven business ethics.Through J Varshit Diam, I aim to cultivate trust, integrity and quality — not just as practices, but as pillars of a long-lasting business legacy. For us, business is not merely a source of income — it is a way of shaping lives, building human values, fulfilling responsibilities, and serving society with positivity.
2. Early Life – The First Spark
During high school itself, I stepped into diamond cutting — and that first touch with diamonds shaped my life thereafter. After completing PTC College, I entered Bhavnagar polished diamond brokerage, guided by my elder brother. My wife and I once dreamed of becoming government teachers, but life's realities guided us toward the diamantaire path instead. In 1995, I moved to Mumbai — the city of dream markets — where I worked as broker, observed the trade, understood people, and absorbed every lesson the market offered. By the year 1998, I took my first bold step — starting my own Diamond Trading Business and by the year 2000 I commenced my company by the name of J Varshit & Co. Early Struggles – Diamonds Are Formed Under Pressure The beginning was far from easy. Every day was a lesson, every challenge a test.
• No business background.
• Limited finance, no strong support system.
• Hardship in sustaining living expenses in Mumbai.
• Wrong decisions due to lack of guidance.• Risk, failures, losses — sometimes forced by circumstances.
• Negative influence & people pulling down morale.
Yet — with courage, patience and inner belief, I kept moving. Those years forged my foundation — taught me the value of ethics, perseverance, responsibility and hard-earned wisdom.
3. Establishing The Company
In 2000, with a small team of 4–5 people but dreams far bigger than we looked, J Varshit & Co was born. Later it evolved into J Varshit Diam — stronger, clearer, more rooted. My Core Vision was simple yet powerful:
• Strengthen family financial stability & fulfill my elder brother's unfinished dreams.
• Build a business empire founded on values and ethics, not shortcuts.
• Contribute meaningfully to society & nation.
• Become an inspiring figure for others to dream and rise.
This vision still guides every decision, every partnership, every direction we choose.
4. Challenges — The Road That Shapes a Man
From finance struggles to earning trust, understanding the market, setting operations, and learning everything from zero — every step demanded resilience. When both personal and business storms arrived together, I often spent long nights alone by riversides or in nature — reflecting deeply. In silence, the universe guided me. Nature became my teacher, healer and guru. I realized one truth —When the vision is pure, and intent is honest, even challenges push you forward instead of pulling you down.
5. Growth Journey
• Gained confidence and support from the very owners I once brokered for.
• Built the company step-by-step through ethics, transparency and gradual progress.
• Grew not just financially, but mentally, spiritually and culturally.The pillars of our company became clear and unshakeable: Principles | Values | Ethics | Honesty | Trust These create relationships not for months — but generations.
6. Vision, Mission & Promise
Our purpose is to achieve financial + emotional growth, contribute to society, and protect nature. To our customers, we promise only three things:Trust, Honesty & Quality. Our dream ahead — to spread positive universal energy through value-based business, where profit is not the goal, but a natural outcome of good intent.
7. Company Values (Rooted in Panch Tatva)
Like nature's five elements, our values breathe life into everything we do:
• Trust – The foundation of every diamond, every deal.
• Transparency – Fair price, fair process.
• Quality – Only the finest shine carries our name.
• Innovation – Always evolving.
• Customer-First – Their satisfaction guides our decisions.
8. Personal Philosophy
Business success is not wealth — it is character. Our future stands strong on the shoulders of my team, my nephews and my son. I give them wings to fly — but our Vision, Values & Principles remain non-negotiable. My role is to guide, empower and give direction, not control.
My greatest asset —Even today, former partners still hold deep respect and remain open for collaboration. That is wealth beyond money.
9. Achievements
• Years of experience — lessons carved like facets on a diamond.
• Strong trust-based relationships with customers & partners.
• Expansion with JVL Group — building global reach.
• Growth from a small team to a value-driven diamond enterprise.
10. Final Message
My greatest wish is that every member of our team becomes valuable — individually and collectively. Hard work, purity, honesty, forgiveness, patience, principles — these are my true wealth, my pillars, my power.
We welcome you to the J Varshit Diam family.

— Natubhai Laxmanbhai Jasani
